City of Scottsdale Green Building Program

POROUS PAVEMENT PRODUCTS & RESOURCES

(Adapted from Environmental Building News, Vol.13, No. 9, 9/04)

POROUS CONCRETE No-fines concrete, typically contracted to Local installers		
Portland Cement Pervious Pavement Manual - porous concrete introduced by the trade association in the U.S.	Florida Concrete & Products Association 407-895-9333, www.fcpa.org	
Grasscrete – similar to open-celled concrete pavers but Monolithic, cast-in-place, then planted with turf	Bomanite (CA) 559-673-2411, www.bomanite.com	
Ecocreto – specialized admixture for porous concrete Recent problems with installation in Pennsylvania	Ecocreto of Texas, Inc. (TX) 512-312-5901	
StoneyCrete – porous concrete produced with Proprietary admixture	Stoney Creek Materials, LLC (TX) 512-261-0821, www.stoneycreekmaterials.com	
POROUS ASPHALT "open-graded," no-fines asphalt with less tar; Normally contracted to local installers		
Trade association, offers information about porous asphalt	National Asphalt Pavement Association (MD)888-468-6499, www.hotmix.org	
OPEN-JOINTED CONCRETE PAVERS Pavers with inherent voids between blocks		
Trade association, offers information for design Professionals, contractors, and homeowners	Interlocking Concrete Paver Institute (DC) 202-712-9036, www.icpi.org	
Bio-Aquifer Storm System- engineered system of Z-pattern, square, or X-shaped pavers over well Prepared base	Advanced Pavement Technology (IL) 877-551-4200, www.advancedpavement.com	
Eco-Perm Pavers – square interlocking pavers; Different installation patterns achieve different void Percentages	Air Vol Block, Inc. (CA) 805-543-1314, <u>www.airvolblock.com</u>	
Ecologic Pavers – wide range of concrete pavers that can be installed in porous applications	Capitol Ornamental Concrete Specialties, Inc. (NJ) 732-727-5460, www.capitolconcrete.com	
ECO 1 Pavers have a brick look; Monoslabs have a Raised "waffle" pattern	EP Henry Corporation (NJ) 800-444-3679, <u>www.ephenry.com</u>	
Environpave Spacers – polyethylene and polypropylene Pipe-style spacers for use with almost any paving block	Pave Tech, Inc. (MN) 800-728-3832, <u>www.pavetech.com</u>	
SF Rima are square pavers; SF Matoro-Drain is a two Dimensional, T-pattern, interlocking system for heavier Loads	SF Concrete Technology, Inc. (ON) 905-828-2868, www.sfconcrete.com	

UNI Eco-Stone – high-load interlocking pavers	UNI-Group U.S.A. (FL)	
with Diamond-shaped corner voids	800-872-1864, www.uni-groupusa.org	
Aquaterra – Z-pattern pavers for driveable	Unilock, Ltd. (IL)	
surfaces	800-864-5625, <u>www.unilock.com</u>	
OPEN-CELLED CONCRETE PAVERS		
Pavers with integral voids for grass or drainage material		
Grass Paver – made from clay (not concrete);	D'Hanis (TX)	
square, 5-hole pavers for use in dry and	800-299-9399, www.dhanisbricktile.com	
moderate climates		
Turf Pavers – lattice-style grid in a large paver	EP Henry Corporation (NJ)	
format	800-444-3679. <u>www.ephenry.com</u>	
EcoGrid Pavers – square pavers with four	Hanover Architectural Products (PA)	
square voids. Appropriate for moderate vehicle	800-426-4242, www.hanoverpavers.com	
traffic.	11 (1 7 7 11 0 (1 1 0 (1 1 (1 1 0 (1 1 (1 1 (1 1 (1 1 (1 1 (1 1 (1 1 (1 1 (
Checker Block – steel reinforced, 2-footsquare	Hastings Pavement Company, LLC (NY)	
(0.2m2) Waffle-type tiles	800-669-9294, www.hastingspavers.com	
Turfstone – lattice-style containment for turf or	Nicolock (NY)	
aggregate Crasstone 7 shaped 8 void containment	800-669-9294, <u>www.nicolock.com</u>	
Grasstone – Z-shaped, 8-void containment	Pavestone (TX)	
block for turf or aggregate	800-580-7283, <u>www.pavestone.com</u>	
GEOTEXTILE BASE MATERIALS		
Interlocking grid with high-profile open cells,	for embedded containment of soil and	
ground material including decomposed gran	ite or plant material	
One value ave O en este utille felorie en el de d		
T L=ravainava / — nantavtila tantic moinan	Invisible Structures Inc (('())	
Gravelpave2 – geotextile fabric molded	Invisible Structures, Inc. (CO)	
directly to one inch high tubular cells (typically	800-233-1510, <u>www.invisiblestructures.com</u>	
directly to one inch high tubular cells (typically 100% post-consumer recycled content) to	800-233-1510, <u>www.invisiblestructures.com</u> GeoSupply (AZ)	
directly to one inch high tubular cells (typically 100% post-consumer recycled content) to provide load bearing support and containment	800-233-1510, <u>www.invisiblestructures.com</u>	
directly to one inch high tubular cells (typically 100% post-consumer recycled content) to provide load bearing support and containment of gravel to create a porous pavement surface	800-233-1510, <u>www.invisiblestructures.com</u> GeoSupply (AZ)	
directly to one inch high tubular cells (typically 100% post-consumer recycled content) to provide load bearing support and containment of gravel to create a porous pavement surface for traffic and parking	800-233-1510, <u>www.invisiblestructures.com</u> GeoSupply (AZ) 602-305-8094, <u>www.geosupply.com</u>	
directly to one inch high tubular cells (typically 100% post-consumer recycled content) to provide load bearing support and containment of gravel to create a porous pavement surface	800-233-1510, <u>www.invisiblestructures.com</u> GeoSupply (AZ) 602-305-8094, <u>www.geosupply.com</u> Netlon Turf Systems (UK)	
directly to one inch high tubular cells (typically 100% post-consumer recycled content) to provide load bearing support and containment of gravel to create a porous pavement surface for traffic and parking	800-233-1510, <u>www.invisiblestructures.com</u> GeoSupply (AZ) 602-305-8094, <u>www.geosupply.com</u>	
directly to one inch high tubular cells (typically 100% post-consumer recycled content) to provide load bearing support and containment of gravel to create a porous pavement surface for traffic and parking Netpave 50 for embedment in turf or gravel	800-233-1510, <u>www.invisiblestructures.com</u> GeoSupply (AZ) 602-305-8094, <u>www.geosupply.com</u> Netlon Turf Systems (UK) <u>www.netlon.co.uk</u> (look for US distributors)	
directly to one inch high tubular cells (typically 100% post-consumer recycled content) to provide load bearing support and containment of gravel to create a porous pavement surface for traffic and parking Netpave 50 for embedment in turf or gravel TufftrackGrassRoad Pavers8 Plus –	800-233-1510, www.invisiblestructures.com GeoSupply (AZ) 602-305-8094, www.geosupply.com Netlon Turf Systems (UK) www.netlon.co.uk (look for US distributors) NDS, Inc. (CA)	
directly to one inch high tubular cells (typically 100% post-consumer recycled content) to provide load bearing support and containment of gravel to create a porous pavement surface for traffic and parking Netpave 50 for embedment in turf or gravel TufftrackGrassRoad Pavers8 Plus – interlocking Honeycomb-void panels (minimum	800-233-1510, www.invisiblestructures.com GeoSupply (AZ) 602-305-8094, www.geosupply.com Netlon Turf Systems (UK) www.netlon.co.uk (look for US distributors) NDS, Inc. (CA)	
directly to one inch high tubular cells (typically 100% post-consumer recycled content) to provide load bearing support and containment of gravel to create a porous pavement surface for traffic and parking Netpave 50 for embedment in turf or gravel TufftrackGrassRoad Pavers8 Plus – interlocking Honeycomb-void panels (minimum 25% post-consumer Recycled content) PermaTurf – interlocking honeycomb-void panels, Sold as a DIY product (100% recycled)	800-233-1510, www.invisiblestructures.com GeoSupply (AZ) 602-305-8094, www.geosupply.com Netlon Turf Systems (UK) www.netlon.co.uk (look for US distributors) NDS, Inc. (CA) 800-726-1994, www.ndspro.com	
directly to one inch high tubular cells (typically 100% post-consumer recycled content) to provide load bearing support and containment of gravel to create a porous pavement surface for traffic and parking Netpave 50 for embedment in turf or gravel TufftrackGrassRoad Pavers8 Plus — interlocking Honeycomb-void panels (minimum 25% post-consumer Recycled content) PermaTurf — interlocking honeycomb-void panels, Sold as a DIY product (100% recycled content, unspecified Source)	800-233-1510, www.invisiblestructures.com GeoSupply (AZ) 602-305-8094, www.geosupply.com Netlon Turf Systems (UK) www.netlon.co.uk (look for US distributors) NDS, Inc. (CA) 800-726-1994, www.ndspro.com PermaTurf Co., Inc. (NH) 800-498-4116, www.permaturf.com	
directly to one inch high tubular cells (typically 100% post-consumer recycled content) to provide load bearing support and containment of gravel to create a porous pavement surface for traffic and parking Netpave 50 for embedment in turf or gravel TufftrackGrassRoad Pavers8 Plus – interlocking Honeycomb-void panels (minimum 25% post-consumer Recycled content) PermaTurf – interlocking honeycomb-void panels, Sold as a DIY product (100% recycled content, unspecified Source) Geoblock – interlocking square-celled panels	800-233-1510, www.invisiblestructures.com GeoSupply (AZ) 602-305-8094, www.geosupply.com Netlon Turf Systems (UK) www.netlon.co.uk (look for US distributors) NDS, Inc. (CA) 800-726-1994, www.ndspro.com PermaTurf Co., Inc. (NH) 800-498-4116, www.permaturf.com Presto Products Company (WI)	
directly to one inch high tubular cells (typically 100% post-consumer recycled content) to provide load bearing support and containment of gravel to create a porous pavement surface for traffic and parking Netpave 50 for embedment in turf or gravel TufftrackGrassRoad Pavers8 Plus — interlocking Honeycomb-void panels (minimum 25% post-consumer Recycled content) PermaTurf — interlocking honeycomb-void panels, Sold as a DIY product (100% recycled content, unspecified Source) Geoblock — interlocking square-celled panels (minimum10% post-consumer recycled	800-233-1510, www.invisiblestructures.com GeoSupply (AZ) 602-305-8094, www.geosupply.com Netlon Turf Systems (UK) www.netlon.co.uk (look for US distributors) NDS, Inc. (CA) 800-726-1994, www.ndspro.com PermaTurf Co., Inc. (NH) 800-498-4116, www.permaturf.com	
directly to one inch high tubular cells (typically 100% post-consumer recycled content) to provide load bearing support and containment of gravel to create a porous pavement surface for traffic and parking Netpave 50 for embedment in turf or gravel TufftrackGrassRoad Pavers8 Plus – interlocking Honeycomb-void panels (minimum 25% post-consumer Recycled content) PermaTurf – interlocking honeycomb-void panels, Sold as a DIY product (100% recycled content, unspecified Source) Geoblock – interlocking square-celled panels (minimum10% post-consumer recycled content)	800-233-1510, www.invisiblestructures.com GeoSupply (AZ) 602-305-8094, www.geosupply.com Netlon Turf Systems (UK) www.netlon.co.uk (look for US distributors) NDS, Inc. RUBBER PAVEMENT AND PAVERS		
Flexible/ cushioned pavement surfaces, often	n made from recycled tires	
PlayTiles –interlocking porous tiles made with recycled rubber, sold as playground surfacing (up to 90% post-consumer recycled material)	Dinoflex Manufacturing, Ltd. (BC) 877-713-1899, www.dinoflex.com	
Flexi-Pave and Flex-Path – site-installed porous urethane bonded crumb rubber pavement (rubber from used auto tires	KB Industries, Inc. (FL) 727-647-2307	
Sport Track – site installed poly-bonded rubber and EPDM granules, sold as running track surfacing	Hellas Construction Inc. (TX) 512-250-2910, www.hellasconstruction.com	
Safety Deck II – interlocking high-void tiles of recycled rubber and PVC; sold as trail and playground surfacing	Mat Factory, Inc. (CA) 800-628-7626, <u>www.matfactoryinc.com</u>	
DuraPaver and PlayBound Tile – recycled- rubber/polyurethane pavers and tiles for walkways and playgrounds	Surface America, Inc. (NY) 800-999-0555, <u>www.surfaceamerica.com</u>	
OPEN-GRADED AGGREGATE Stabilization and bonding of soils and decomposed granite		
Trade association offering software for Stormwater Infiltration Structure Design	National Stone, Sand & Gravel Assoc. (VA) 703-525-8788, www.nssga.org	
Stabilizer Solutions – stabilized binder and reinforcement for decomposed aggregate	Stabilizer Solutions Inc. (AZ) (602) 225-5900, www.stabilizersolutions.com	
Soil-Sement – stabilization for decomposed granite	EarthCare Consultants, LLC (AZ) 888-792-4001, www.earthcareconsultants.com	
Pre-stabilized Granite - 1/4" minus decomposed granite pre-blended with organic stabilizing compound; Soilshield-LS - liquid copolymer concentrate which when diluted and applied bonds decomposed granite	Soil-Loc, Inc. (AZ) (480) 948-8114, <u>www.soilloc.com</u>	
MARLOC – compounded waterborne copolymer emulsion used to stabilize soil materials	Reclamare Company (WA) (206) 824-2385, <u>www.reclamare.com</u>
